

What is your name?	What is your district?	Does the price of food impact your grocery shopping purchases?	Do you think Kansas shoppers consider price while shopping?	Would you support a reduction or elimination of state sales tax on the following:	Would you support policies to ensure nothing would preclude state funds from being used to support physical education?	Are you supportive of local planning policies that promote neighborhood and community trails?	Are you supportive of local programs that help consumers access and consume fresh local food?	Do you agree that Kansans should have access to healthy food?	Are you satisfied with the continued rise in obesity rates of Kansas adults and children?
